

Class Exercise 10: Demographic Tables

Instructions: Providing tables in your research paper is a great way to summarize statistical information for your reader.

Practice **generating** APA-formatted Tables. Report the demographic, descriptive statistics from our experimental dataset and then summarize the data in created tables. Follow your instructor's demonstration for how to format APA Tables.

Requirements: To successfully complete this exercise, you are required to:

1. **Report** the demographic statistics of our experiment
 - o **Hint:** In Jamovi, go to "Exploration/Descriptive"
2. **Review** the APA_Table_Figure_7ed.pdf file in Canvas
3. **Create** two (2) **Tables** in APA format
 - o focus on formatting table components (table number, title, headings, body, note)

Please create up to two (2) Tables for this exercise. For your final paper, you must include at least two (2) Tables, but you can certainly make more if they better summarize your demographic information.

Please use a **word processing program** (such as MS Word) to complete this exercise.

- - - - -

Participants by Condition (count = number of participants in each condition)

Unforgiveness – IH: 21

Unforgiveness – Control: 30

Forgiveness – IH: 22

Forgiveness – Control: 38

Participants' Gender Identity: % ($n = x$)

Man: 38.1

Woman: 54.9

Non-Binary/Third gender: 0.9

Gender: Unspecified: 6.2

Participants' Race: % ($n = x$)

Asian or Asian American: 11.3

Black or African American: 6.6

Latino/a/x: 3.8

White: 70.8

Other: 0.9

Mixed race/ethnicity: 5.7

Native Hawaiian or Other Pacific Islander: 0.9

Other Demographic Information

Age

Mean (Average) Age, Standard deviation Age:

$(M_{age} = 35.18, SD = 16.10)$

Education Level

Less than a high school diploma = 2

High school diploma or GED = 37

Some college, no degree = 12

Associate's Degree (AA, AS) = 4

Bachelor's Degree (BA, BS, BBA) = 25

Master's Degree = 18

Professional Degree (for example, MD, DDS, JD) = 6

Doctorate (PhD, EdD) = 3

Prefer not to say = 0

Median Education Level:

$Median_{Education} = \text{Associates}$

Let's First Create an APA table of the sample sizes per condition

Table 1

Sample Size Per Condition

Post-Transgression Response	Intellectual Humility		Total
	Intellectual Humility	Control	
Unforgiveness			
Forgiveness			
Total			

Recreate the table above:

Table 1

Sample Size Per Condition

Post-Transgression Response	Intellectual Humility Condition		Total
	Intellectual Humility	Control	
Unforgiving	21	30	51
Forgiving	22	38	60
Total	43	68	111

Now, recreate the table below and report the demographic data:

Table 1

Demographic Characteristics

Demographic Characteristics of Final Sample	
Final, <i>N</i>	X
Mean Age (<i>SD</i>)	x.xx (x.xx)
Median Education	X
Gender	
Men	x.xx% (<i>n</i> =)
Women	x.xx% (<i>n</i> =)
Non-binary/third gender	x.xx% (<i>n</i> =)
Gender: Unspecified	x.xx% (<i>n</i> =)
Race/Ethnicity	
White	x.xx% (<i>n</i> =)
Asian or Asian American	x.xx% (<i>n</i> =)
Black or African American	x.xx% (<i>n</i> =)
Middle Eastern or North African	x.xx% (<i>n</i> =)
Hispanic or Latino	x.xx% (<i>n</i> =)
Native Hawaiian or Other Pacific Islander	x.xx% (<i>n</i> =)
Mixed race/ethnicity	x.xx% (<i>n</i> =)
Race: Other	x.xx% (<i>n</i> =)

Table 1*Demographic Characteristics*

Demographic Characteristics of Sample	
Total, <i>N</i>	113
Final, <i>N</i>	108
Mean Age (<i>SD</i>)	35.18
Median Education	Associates
Gender	
Men	38.05% (<i>n</i> = 43)
Women	54.87% (<i>n</i> = 62)
Non-binary/third gender	0.88% (<i>n</i> = 1)
Gender: Unspecified	6.19% (<i>n</i> = 7)
Race/Ethnicity	
White	70.75% (<i>n</i> = 75)
Asian or Asian American	11.32% (<i>n</i> = 12)
Black or African American	6.60% (<i>n</i> = 7)
Middle Eastern or North African	0.00% (<i>n</i> = 0)
Hispanic or Latino	3.77% (<i>n</i> = 4)
Native Hawaiian or Other Pacific Islander	0.94% (<i>n</i> = 1)
Mixed race/ethnicity	5.70% (<i>n</i> = 6)
Race: Other	0.94% (<i>n</i> = 1)

Note: The percentages are based on the total sample
